## Fundraising Made Easy

- All Inclusive Website
- Access to Account Representative
- Free Marketing Material
- Step-by-step plan
- Quick Payments
- Free consultation
- Easy process
- Unlimited Revenues
- Multiple organizations can run at once
- Great Service

ReviveTech, which is a subsidiary of Re-LCD Inc. has been recycling and recertifying hardware and consumer electronics for many years. With the adaptation of Smart Phones, Tablets and other consumer devices we started to become aware that people were upgrading the devices far quicker than ever before. This was creating a problem with older hardware starting to find its way into landfills. This is a problem for our environment and ReviveTech mission was formed.

Today, ReviveTech has a 40,000 sq. ft. state of the art facility in Dallas, Texas that is equipped with the latest state of the art technology for recycling. We have the ability in house to repair hardware to a fully working state, that gets repurposed back into our economy and out of the ever filling landfills.

## Solutions For Your Fundraising Needs

Cost Free. Quick. Easy. Lucrative.

### Fundraising Solutions

After realizing the need for a less labor intensive, more profitable fundraiser ReviveTech was born. Comparing RTF to other fundraisers creates a one sided comparison with ReviveTech winning every time. Finding a solution to **COST\*TIME\*REVENUES\*REPEATABILITY** began as the goal and we successfully found the answers.

**COST**– No cost to the organization. Print material, Shipping, and Advertising Paid.

**TIME**– This fundraiser can run for long or short periods. Processing and Payment of devices are done in 30 days or less!

**REVENUES**– When compared to other fundraisers. Device recycling out earns every other program. With prices per device exceeding \$200 it is easy to raise thousands in a short period of time.

**REPEATABILITY**– This program can be run as many times as you want!

Save the World. Raise Money.

## CUSTOM FUNDRAISING

We cater to creating a fundraiser that works in any application. Whether it be for a school district, NPO, Church, individual, or small organization, Revive Tech has a solution.

### For Profit Fundraising

Fundraising isn't just for non-profits. This program can be used to generate additional income for businesses, private organizations, social clubs etc.

### THE PROCESS

We understand that fundraising is something that families and organizations have to do in their spare time. Realizing this we have created a simple step by step process and low effort fundraising process that can be implemented across the smallest or largest organization.

### STARTING YOUR EVENT

1. Contact VP of Fundraising. [Fundraising@cfbpta.org](mailto:Fundraising@cfbpta.org)
2. Set Your Goal!
3. Fill out the intake form.
4. Receive your personalized recycle bins, posters, and other marketing material to promote your fundraiser!
5. Collect as many devices as you can from **November 1-December 9 and January 4-February 24,** pick up will be during the weeks of **December 12, 2016 and Feb 27, 2017.**
6. Once received, we will process the devices and remit payment within 30 days of receiving the devices!

Save the World. Raise Money.

So what are you waiting for? With the average home having 4-6 old devices imagine how many you can collect. The organization can ask not for monetary donations, but for donations of devices that will never be used again. Most of the devices that are tucked away in the take out sauce drawer, or hidden in a closet will eventually end up in a dump, having a negative impact on everything from the ozone layer to our ground water supplies.

So we ask you to do your part! Save The World. Raise Money.

RAISE MONEY. SAVE THE EARTH.
